# Ellie Taylor-Burr

## “Surviving & Thriving”

After years of struggling with her mental health, Ellie was finally diagnosed autistic at 28, and with ADHD four years later. Everything made a lot more sense - but this wasn't the end of the journey.

Join Ellie - also a parent carer of two autistic teens - for a candid retelling of her story, tackling questions such as:

- Why is it so difficult to navigate a neurotypical world?
- What are the dangers of leaving autistic individuals disbelieved and unsupported?
- What happens when you embrace who you really are?

**\*\*Booking via eventbrite\*\*** (Please note - this is a hybrid event and is available in person and online).
